Summary

The fastest-growing accounting firms don't rely on cold outreach, networking events, or "Contact Us" forms. Leading companies like Holded and TheGestor attract high-intent prospects by providing valuable tools, guides, calculators, and resources before asking for a sales conversation. At Forge Foundry, we build the same client acquisition systems for accounting firms—helping them generate qualified opportunities through Google and valuable digital assets. www.myforgefoundry.com info@myforgefoundry.com 33 Queen St, London | One Central, 8th & 9th Floor, Dubai | 524 Broadway, New York
